

No interest in standard solution?

Then help to create the world's most extraordinary facades with us!

For our office in **New York** we are looking for a reliable, competent and committed person for

Technical Purchaser

AREAS OF RESPONSIBILITY

- Procurement of fabrication materials and subcontractor services
- Independent contract management and price negotiations in an international environment
- Evaluation of offers including incidental and consequential costs
- Cooperation with technical departments and analysis of suppliers
- Strategic development of the supplier base

REQUIREMENTS

- Completed commercial or technical studies or comparable training - preferably in the metal or construction industry
- At least 5 years' experience in purchasing (ideally in steel, metal or facade construction)
- Experience in dealing with suppliers and conducting negotiations
- Ability to communicate and work in a team
- Very good English required (knowledge of German or Italian would be an advantage)

WE OFFER

- Flat hierarchy and appreciation of ideas
- Training opportunities for personal growth
- Various benefits (PTO, 401k etc.)
- We pull together: an open, positive working atmosphere unites us on the way to our goals
